Subject: Socialist Workers Party exemption

Ms. Weintraub,

This is unbelievable. With the changes in election and contribution reporting, why would you grant the SWP an exemption? They should be held accountable just like the democratic, republican, and other political parties. Especially now that anti-war demonstrations are staged by the communist party and its sympathizers (and there is no doubt of this), I would think that the FEC would want the SWP to be held accountable in our open and free society.

I can only hope you and your commissioners reconsider. I will be contacting my elected representatives.

Sincerely,  
Michael McConkey
