Dear Kathryn,

Yesterday I filed the January year end report with the FEC. I attempted to do so as directed as a continuation of other reports. Trouble is there were large chunks of information not available from past reports causing a discrepancy in the amounts of funds at closing. The receipts and disbursements are accurate, but the ending balance is inaccurate. It shows \$18K and some change but actually in the amount is \$743.35. Consequently, I have filed a bogus report according to the rules. With the shutdown I realize you folks are swamped and I wanted to get on top of this. I would like to get these problems resolved, so I may turn this over to someone with a better understanding of accounting and FEC compliance.

Thanks again for your help and understanding in the past.

Kindest Regards,
Mike Shryock
Treasurer
Henry Martin for Congress Campaign.

P.S. The shutdown of the government was unconscionable. Public servants as yourself have my total support. You deserve better.
I hope you get your back pay soon.
